## PROGRAMMER

Moscow oblast, Lobnya      Age: 20

### ABOUT ME

Beginner programmer without commercial experience. I have experience working in a small team. I know how to allocate my time optimally to finish all tasks. Also, I have a logical mind.

### EDUCATION

**2020 - till now**      **MIET: Bachelor of
Software Engineering**

### WORK EXPERIENCE

**2022 - till now**      **Python teacher**

I work as a teacher in Lobnya at Robocode. I teach the Python language to children 11+ years old in full-time group classes.

### SKILLS

- **Programming:** Python, C/C++, JavaScript, Go, Bash

- **Tools:** Git, SQL, Selenium, Open MP and MPI

- **Platforms:** Windows, Linux, MacOS

- **Languages:** English (B1), Russian (Native)

### PROJECTS

- **Interaction with the MS Access database using a graphical interface in Python::** The functionality includes requests for adding, updating and deleting

- **Calculator test using Python scripts:** Automatically executes all prescribed tests in the GUI

- **Titanic passenger survival prediction in Python:** Used pandas for data analysis and sklearn for machine learning
